Clear, mild, growing cold
Walking very slippery. A
little sun on the ground.
Melting & freezing has made very
hard walking.

At 12 midnight we lis-
tened to the horns & blowing
for 40 min. ere they stopped.

This A.M. I walked over
to Ned Rands and sat a good
while with him. He was
bright but keeps silent.

While I was there Daisy,
Harry S. Rands & Harry L. called.
We all had a bright time.
Ned has heaps of presents.

I returned by electric.

I read wrote & rested in
the P.M. I am fighting off a
cold.

Evening at home writing

at Emma, which I enjoy
very much. Jane Curtiss
books are unique & remarkable.

The cold that has
got hold of me has
kept me home &
I only pray that it
won't keep me home
on Friday evening.

I have been reading
Emma to-day and
writing letters to va-
rious friends. I find
that I shall write
more than I have
intended.

Miss P. Knowlton
came, and we worked
hard on our Local Flora

the cards by the next
meeting!! It will be
some time ere the parts
will all be published
What a relief!!

Cold cloudy, clearing

At home all day. Cold
progressing. I hope to
go to Bat. Club to-morrow.
I must drive in if I go.
I have some games
writing, but I have given
much time to reading
and finishing "Emma" by
Jane Austen. I get fasci-
nated with her books -
This is the 4th one of 1 vol.
She depicts so well the
customs of the times,
so different from ours, and
her characters are so
cleverly drawn and con-
sistent throughout. I have
two more to read.

Carl's Daughter, 9 mos, died
early this morning. It is a
blessing for she could not recover.
I pity Carl very, very much!

luck, but nothing to be
done.

I have written quite
a number of short let-
ters to Xmas friends. It
will take some time to
get through.

I am starting to read
Charlie Townsend's new
book Beach Grass. I know
I shall like it well.

My cold I think is improving - I got up late and have been up stairs. While coughing pretty hard at times I am much better I am sure.

I have read quite a little in Charles Townsend's 'Beach Grass'. It is very interestingly written and full of close observations requiring patience and a quick perception to follow so carefully the tracks in the dunes. I shall write him when I have finished.

At home this evening my cold bids me be quiet & careful. I have events next week that I don't want to miss if I can keep it.

I have spent much of the day in reading Charlie Townsend's "Black Grass", and I have finished it now, 7 P.M.

It is a very well written book and shows great familiarity with every phase of life and habits of the ocean & dunes in the seasons, and is most interestingly told. He should be very much pleased. I shall tell him. Reading & planning this evening -

This evening I invited Geo. to drive down with me to the Hunt Club. He walked but drove back with me. I got through the evening very well, and I feel that I can go to-morrow to the Shakespeare Comm. Meeting.

The meeting at Charles's was very pleasant. Mr. A. P. Morse talked on the country & the birds of Western Nebraska. He had slides of the region. All very interesting. It was an instructive talk, & much beside birds.

This evening I drove to Dr. Palmer's for the Shakespeare Club. We had a very successful evening indeed. There was 28 active members present and some guests.

The reading was exceptionally good. The readers rose as their names were called and the effect was good. Prof. Day was exceptionally fine as Coriolanus full of vigor and the support was good.

My cold is much better but still not entirely gone.

At home to-day - I have
spent a good while
on the Shakespeare
records, casting a new
play and printing it,
making 40 sheets and
they will be mailed

of work. I don't think
the Club realize it.

I have finished
Persuasion & The Watsons.

The former is as interesting
as the rest - The latter
is short and unfinished
and I am making a
mistake. It is hard to
keep the characters
separate and follow
them. I have read five
books & have one more,
Northanger Abbey and
Lady Susan -

remarkable moving picture
show "The Ten Command-
ments". It is marvelous
how realistic it all is -

This evening we got not
the Shakespeare notices
for March. The press
again played me false,
and I am disappointed.
I got them out though,
but I can't see where
the trouble is - The

This P.m. I drove to Sanders

to get in. Never in such a jam.
Finally, I had a fine seat
on the floor, 3 rows from the front.
Enthusiasm as the procession
came in. Music & singing. Short
5 min. addresses from distinguished
men, E. T. Sanford, Pres. Harvard Alumni
Bishop Lawrence, S. Wigglesworth, Pres.
of Overseers, L. R. Briggs, C. H. Cox
Gov. of Mass., W. H. Taft Chief Justice
of U. S., A. L. Lowell, Pres. of Harvard.
Response by Mr. Eliot. Enthusiasm.

I went over to the Coll Yard and
saw the crowd & Eliot spoke.

Then home rather tired.

Evening in peace & quiet,
far from the mad-dog crowd.
Full moon in clear sky -

Clear, chilly, wind east.
Clouds in evening.

A perfect day -

Went to J.R.C.'s this A.M.
and stayed from 10 A.M. to
5.15 P.M. We worked over
some Carices he had from
Florida and had sent du-
plicates of to Mrs. Chase.
It was very interesting.

We discussed the episode
of the Mex. Flora Comm.
It is all right now -

I got home to supper.
Talked over phone with
Geo who has caught a
Chickadee today, banded

It was never brighter -

Clear calm wind.

At home Sun. & Mon. spent
for a walk to Brown & Thichols
for tickets to the Arena.

Much work of Thora Neess.

Thurs. B. & I reached the Arena
by 8 P.M. and witnessed a
marvellous performance in skating
till 11 P.M. Scenes were founded
on Hawthorne's The Maypole
of Merry Mount. There was
the throng of merry-makers
in every kind of costume,
dressed as animals &c, one little
fellow being a rabbit. &c &c

The many scenes included
skating of the highest
type by men & women.
Some were professionals.
I never was more fasci-
nated before. The female
skaters were the poetry of
motion and the men also.
They performed marvels -

Home near midnight.

This P.M. I met Miss Brown in Boston and we lunched and then went to The Majestic and saw the movie "America", a very remarkable production. However, as is usual, there is inserted much that should not be put on the screen. Cruelties openly shown and insults to women. They are absolutely unnecessary. Even at home

Very busy this A.M. with Gray Herb. correcting Local Flora proof -

At noon went to Robbins' in town and he lunched with me and we had a good long talk. Lunched at Maisters Brattle St.

I returned to Gray Herb. and Dr. Robinson read to me his paper for the Am. Acad. on Dr. Goodale. It is a very fine article, I think, not easy to write. Then home.

Then back to Boston to the City Club. Lunched with Sprague and then heard a wonderful talk with set & moving pictures on the Asiatic expedition of 3 yrs. in central Asia where such marvellous results were got. It was by Roy Chapman Andrews, leader of the Exp. search for oldest man. —

This morning Geo. took me to drive some distance through Arlington out on the highway to Lowell. We got off on to country roads and saw a bit of nature. I saw cabbage up, point of tightly rolled leaves some in. s. up, Red maple in flower, also Amer. Elm Green in low land fresh & green. Farmer's areas green with young plants set out. Green-houses fresh green with veg. etable plants. On the main highways many cars, on the country roads few or none. Home to dinner -

Writing in Pen. Later called on Lacy & May. Then on Mary & George and took tea with them and spent the evening in pleasant conversation. Fine sunset

ALEXANDER POPE DEAD

Well-Known Artist Expires Suddenly at Summer Home at Crow Point, Hingham— Was a Native of Dorchester and Had Been Active in Organizing Zoological Garden at Franklin Park and Was Member of Boston Art Club

Alexander Pope, the artist, widely known for his pictures of animals in which he excelled, though he had made a big name also as a portrait painter, died suddenly today at his summer home at Crow Point, Hingham, in his seventy-sixth year.

Mr. Pope was born in Dorchester March 25, 1849, and his parents were Alexander and Charlotte Caldwell (Cushing) Pope. He was educated at the public schools in his own district, and at Eagleswood, N. J.; but in the field of art, which he subsequently was to take up as his life work, he was self taught. In his early years he devoted all of his spare time to painting, and he gradually turned his attention first to game birds which he carved out of pine wood and then painted. Two of these were purchased by the then Emperor of Russia. Subsequently he gave special attention to animals and to still life. Of recent years Mr. Pope had given his whole time to portrait work.

When the zoölogical gardens at Franklin Park were first proposed Mr. Pope was one of the most ardent advocates of such

a proposition and it was he perhaps more than anyone else who was responsible for finally assembling the collection of animals which the public now sees there.

One of his more famous paintings was the picture of a caged lion which was painted at P. T. Barnum's winter quarters at Bridgeport, Conn., a number of years ago. For a long time this picture hung in the store of A. Shuman & Co. and attracted a great deal of attention; and it was said of the picture that so life-like was it that little children upon catching sight of it drew back in fear.

Mr. Pope was a member of the Boston Art Club, the St. Botolph Club, the New England Kennel Club and other bodies. He published in 1880 a series of game bird plates under the title "Upland Game Birds and Water Fowl of the United States."

For a long time Mr. Pope maintained a studio at 120 Tremont street. His Boston home was at 1013 Beacon street. In 1873 Mr. Pope married Miss Alice De Wolf Downer of Dorchester. She and two children, Samuel Downer Pope, of Wakefield and Charlotte De Wolf Pope, now Mrs. John B. Chamberlin of Stearns Road, Brookline, survive him.

Hingham

**NATIVE OF BOSTON;
ALSO SCULPTOR**

Alexander Pope, noted Boston portrait painter and sculptor, collapsed at the wheel of his automobile while driving from his summer home on Whiton avenue, Crow Point, Hingham, yesterday, and was dead when aid arrived. His machine skidded into a telephone pole on Downer avenue, opposite the Crow Point garage, and garage employes summoned Medical Examiner John A. Peterson, who pronounced death due to heart failure.

Mr. Pope was born in Dorchester, March 25, 1849, a son of Alexander and Charlotte Caldwell (Cushing) Pope, and was educated in the Boston public schools. In his chosen field of art, however, he was self-taught. In his early years he turned his attention to game birds, painting them from models he carved first from pine wood. Two of these were bought by the Czar of Russia. Later he gave special attention to animals and still life, while in recent years he had confined himself to portraits.

SCULPTOR AND ARTIST

Boston knew him best through his painting of "The Gladiator" at the Copley Square Hotel, the Kensington lions on Boylston street and his famous picture of a caged lion, painted a number of years ago at P. T. Barnum's winter quarters at Bridgeport, Ct., which hung for many years in the store of A. Shuman & Co. It was often said of this picture that little children drew back in fear on catching sight of the life-like beast.

His work, "Our Vanishing Wild Life," shown at the San Francisco exposition, was selected by the committee on sculpture as one of the best examples of American sculpture. In 1880 he published a series of game bird plates called "Upland Game Birds and Water Fowl of the United States," and, although few knew it, he was the ardent advocate of the zoological gardens at Franklin Park when they were first proposed and was responsible, perhaps more than any one else, for finally assembling the collection of animals now housed there.

He was a member of the Boston Art Club, the St. Botolph Club and the New England Kennel Club. For many years he maintained a studio at 120 Tremont street, while his Boston home was at 1613 Beacon street. In 1873 he married Miss Alice De Wolf Downer of Dorchester. She and their two children, Samuel Downer Pope of Wakefield and Charlotte De Wolf Pope, now Mrs. John B. Chamberlain of Stearns road, Brookline, survive him.

EDWARD L. RAND DEAD

Graduate of Harvard, '81, Resident of Cambridge, and Interested in Botany, on Which He Wrote Considerable

Edward Lothrop Rand, a Boston lawyer, who practiced in this city, with an office at 53 State street, from 1884 until 1921, when he was incapacitated by reason of a stroke, died early this afternoon at his home, 1899 Massachusetts avenue, Cambridge, following a second stroke which he suffered early today.

Mr. Rand was a native of Dedham, where he was born in 1859. He was the son of Edward S., Jr., and Jennie A. (Lathrop) Rand. He was graduated from Harvard in the class of '81. He was a member of the Massachusetts Bar Association, Bar Association of the City of Boston, Military Order of the Loyal Legion, New England Botanical Club, Episcopalian Club, and the Phi Beta Kappa.

He was the author of the Flora of Mt. Desert Islands, Me., which he published in 1894; and he also wrote numerous articles on botanical subjects for various scientific and other publications.

The surviving members of his family are a sister, Miss Margaret A. Rand, and a brother, Henry L. Rand, both residing at 49 Kirkland street, Cambridge. Mr. Rand's wife, who was Annie M. Crozier of Charlestown, died in 1921.

Christ Church, Cambridge, was filled to-day with friends and associates of the late Edward Lothrop Rand, whose funeral services were conducted there at noon by Rev. Prescott Evarts, rector of the church, assisted by Rev. Carlton P. Mills, rector of the Church of the Redeemer, Lexington. The chancel was filled with chrysanthemums and other seasonal flowers.

When the vested choir had taken their places, the body was borne to the front of the church, preceded by the minister, the honorary pallbearers and members of the family. The honorary pallbearers were Rev. Samuel A. Eliot, D.D., president of the American Unitarian Association; Walter Deane, Ernest Leverhøj and Dr. H. L. Robinson. The ushers at the services were Charles F. Batchelder, William C. Lane, Henry M. Spelman and Robert A. Ware.

The choir sang selections from the Thirtieth, Ninth and Ninetieth Psalms, and, in order, followed the lesson taken out of the Fifteenth Chapter of the First Epistle of St. Paul to the Corinthians: "For All the Saints Who From Their Labors Rest," "Hark, Hark My Soul, Angelic Songs are Swelling."

Among those attending the services were Dr. Charles W. Elliot, president emeritus of Harvard University. Interment was in Mt. Auburn cemetery.

Alexander Pope, Painter and Naturalist

By Dallas Lore Sharp

The dogs and horses do not know that Alexander Pope is dead, nor do the wild birds of our Hingham Sanctuary, nor the caged wild animals of the Franklin Zoo. Yet he was their great friend. But they know the living only, while we sometimes know only the dead. Death, however, can discover nothing to us in this singularly simple and great man, except the extent of our love and loss. He lived in the open. He was unwithholding, and as frank as a child and as free. He lived zestfully, holding nothing of life in reserve, giving wholly and without stint. Neither moth nor rust could corrupt him, nor Time, the thief, steal from him, for he gave Time constantly all he had. Few men that I have known enjoyed life as much as he, or gave back to life so much of joy out of all that he received.

Ther MON. JUNE 16, 1924 Wea

— Alex. Pope —

Naturally and by training a keen observer, absolutely fearless and honest with himself, he was quick of wit, blessed with humor, and so combined an uncompromising attitude with a generous tolerance that left no doubt as to where he stood, yet left you ample room to stand. He differed radically from many of his friends on the question of caging wild animals. He was the moving spirit behind the Franklin Park Zoo. And I wonder if the most humane of us, remembering that they are wild and not human animals, seeing their care and quiet safety, can really differ from this life-long student and friend of all wild life that, on the whole, these creatures in the cages enjoy a larger measure of what is essentially to them the pleasures of life? And is he not right also in his contention that seeing these strange and savage forms at close range and in these wholesome and natural quarters we will, in the long run, be taught consideration and kindness for all animal life? This was his stubborn belief. This he worked for, in print, as an official of the park, and devotedly with his brush since he drew his first horse as a little child. Horses and dogs and children loved him. The quail of his dooryard knew him as a friend, spoke to him in his own tongue, and made his haunts their home. It is a large world in which we live, but not a large or a kind world to bird and beast, except in the far wilderness or in the generous neighborhood of such men and lovers of life as Alexander Pope.

+ + +

—

- Alex Pope -

See how he widened the borders of the wild birds of Hingham! The establishment of our wild bird sanctuary was wholly his doing. He saw the acres of the United States Arsenal fenced in and guarded—a good beginning for a bird reserve! Enlisting the owners of Crow Point to the last one, and persuading the adjoining Bralley estate to unite with Crow Point, Mr. Pope brought together a wild bird sanctuary in Hingham of nearly three thousand acres, including almost every variety of nesting site and feeding ground, from the seashore to the upland woods and pastures.

So he wrought, but much more with his brush. The circus lions fare better for his painting them. Many a horse has an easier bit and a glossier coat because of his loving brush. And who has come nearer telling the pain, the yearning in the tender troubled light of all dogs' eyes than their painter, Alexander Pope? Or who has revealed to us so much of the beauty of the dog in action? No man who follows a beagle through the woods, or quarters a meadow behind a setter, or has ever waited among the reeds with a retriever waiting for the ducks, can fail to know how much this man lived with his dog before he painted. His picture is the almost unblinded expression of his heart.

+ + +

Alexander Pope

For he was a naturalist first and always, his art a perfectly spontaneous utterance which might have been in paragraph or poem, had it not from childhood quickly shaped itself in color and clay. A story seems to go with every animal portrait of Mr. Pope's, and the pity is that only the picture was given to the public. But what a human companion his endless fund of incident and anecdote made him. His story of Jumbo and the locked freight car! And the old Brookline dog who lost his voice and couldn't bark, but got a neighbor dog to bark for him! I do not know how great an artist he was. I only know his gentleness, his frankness, his humanness, his love of life in and out of harness, made him a great man. And who among us has done more than he, or more accurately, lovingly and beautifully to interpret the story of dumb wild life that we may understand?

Painter, sculptor, naturalist, Mr. Pope was still more the citizen and friend. His capacity for friendship was extraordinary. It was bottomed on an abiding faith in human nature and a genius for both finding and making people interesting. The boy cutting his lawn, a chance acquaintance of the road, his wide circle of professional friends, his closer circle of neighbors, to the least child, responded to the warmth of his interest and felt the compliment of his greeting. He called children by their first names. The day he died Brookline put into practice a reform in its voting places which Mr. Pope for the last year of his life had been urging in the local newspaper. A simpler man, a better citizen, a truer friend of men and animals I have never known; nor a more wholesome, normal, balanced life, nor one more strictly devoted to life and art.

IN MEMORY OF MRS. ELIOT

Service for Wife of President Emeritus of
Harvard University Is Held at First
Church in Cambridge

In memory of Mrs. Charles W. Eliot, wife of the president emeritus of Harvard University, a special service was held yesterday afternoon at the First Church in Cambridge. Mrs. Eliot died at her summer home at Mt. Desert last July, and as funeral services were held there at the time, her many Cambridge friends desired that there be a memorial service at her home church in Cambridge, where they might gather to honor her memory.

The service opened with an organ voluntary by Dr. A. T. Davison of Harvard, who played a "Fugue in B Minor" from Franck, followed by Brahms's "Choral Prelude." The Harvard College Choir then sang "Periti autem Fulgebunt," set to music by Mendelssohn. Rev. Samuel M. Crothers, D. D., minister of the church, read from the Scriptures and prayer was offered by Rev. A. C. McGiffert, Jr., followed by the choir chanting "Father Almighty" to the music of "Integer Vltæ."

Rev. Samuel A. Eliot, D. D., president of the American Unitarian Association, gave a short introduction. A life so rich and radiant cannot be allowed to pass without love and praise, he said. It was a life rich and full, rich in interesting contacts with all kinds of people, rich in love given and in love received. Hers was a buoyant spirit, a hospitable heart, a positive character and a distinctive personality, abundant in friendship but not dependent on praise or blame.

Rev. Francis G. Peabody, D. D., told of the service at Mount Desert. It was an added sorrow to the Cambridge friends of Mrs. Elliot, he said, that she should die so far away. Through the spring Mrs. Elliot had eagerly desired to reach her home in

Maine, and the difficult journey was undertaken more as a last resort than with much hope of her recovery. The service at Mount Desert was simple but deeply moving, with city folk and villagers, old people and young, prosperous people and islanders and fishermen crowding the cottage and its ample porches to testify to the affection of years. It was a service such as she would have wished, simple, spontaneous and restrained, a natural utterance.

Thomas Mott Osborne introduced his remarks by saying that Mrs. Elliot had loved deeply her whom he had loved most. Mrs. Elliot's friendship had been a great inspiration to him, he said, and he counted it one of his most valued privileges to have known her from the time he was a freshman at Harvard. He told of her delight in music, and of the pleasure which she gave by her singing. She had, too, the dangerous talent of mimicry, but she did not use it for ridicule and never to hurt the feelings. Though a daughter of New England, she had nothing of the grim seriousness that often has cramped New England lives. Gayety, humor and fondness for all genuine fun colored her life. She was one who would not falter, whose faith was deep, and who had the great quality of loyalty.

Following the addresses, the congregation sang "I Cannot Think of Them As Dead," and the benediction was pronounced by Dr. Crothers, with an "Amen" sung by the choir and an organ postlude by Dr. Davison.

Ushers were Roger Pierce, Professor R. B. Merriman, Rev. H. W. Foote, D. D., Dr. Fremont Smith, R. C. Palne and Charles Hopkinson. President Elliot occupied a front pew at the right of the church, in which were seated with him Mrs. Charles Elliot, Mrs. S. A. Elliot, Mrs. Charles W. Elliot, 2d, and Mrs. A. C. McGiffert, Jr. In a front pew at the left of the church were the following grandchildren: Mr. and Mrs. Roger Pierce, Miss Grace Elliot and Miss Carola Elliot.

Other relatives who occupied reserved pews were Dr. and Mrs. Fremont Smith, Dr. and Mrs. R. C. Palne, Miss Leslie Hopkins, Mr. and Mrs. Charles Hopkinson and family, Professor and Mrs. George P. Baker, Myles and George Baker, T. L. Elliot, Miss Martha Bigelow, T. H. Elliot, Dr. and Mrs. Robert B. Greenough, Mr. and Mrs. J. B. Read, Mr. and Mrs. R. H. Johnson and Mr. and Mrs. E. H. Goodwin.

PROF. G. C. WHIPPLE DEAD

Graduate of Institute of Technology, '89,
and One of Faculty of Harvard Since
1911

Professor George Chandler Whipple of Harvard University died suddenly on Thursday at his home, 6 Berkeley place, Cambridge. He was born at New Boston, N. H., March 2, 1868, and was graduated in 1889 from the department of civil engineering at the Massachusetts Institute of Technology.

The field of sanitation, which was rapidly unfolding its possibilities at that time, claimed his services immediately upon graduation. From 1889-1897 he was in charge of the Chestnut Hill laboratory of the Boston Waterworks, and from 1897-1901 had directed the work of the Mt. Prospect laboratory of the Brooklyn and New York Water Department. Resigning his official duties in 1904, Mr. Whipple took up the private practice of sanitary engineering in New York city, and since that date he had been a member of the firm of Hazen & Whipple. This firm has been recognized as one of the most capable in its special line, which has had to do with water supplies, the purification of water and the disposal of sewage. Mr. Whipple served on many important commissions having to do with the solution of sanitary problems.

In 1911 he was called to Harvard University and made Gordon McKay professor of sanitary engineering which position he held at the time of his death. During the period when the Harvard Engineering School and the Massachusetts Institute of Technology were coöperating he was also professor of sanitary engineering at the Institute.

Professor Whipple was one of the organizers of the School of Public Health of Harvard University and the Massachusetts Institute of Technology which was founded in 913, and served as secretary of the school until it was discontinued in 1922.

He held the position of professor of water supply at the Brooklyn Polytechnic Institute from 1907-11. In 1914 Professor Whipple was appointed a member of the public health council of the Massachusetts State Board of Health, and was chairman of the committee on sanitary engineering until last year. He was also a member of the Massachusetts Homestead Commission.

From 1913 to 1916, he was a member of the committee on building districts and resolutions of New York city and from 1912 to 1916, chairman of the Cambridge Sanitary Commission.

In 1917 he served as major and deputy commissioner to Russia in the American Red Cross. In 1920 he was appointed chief of the department of sanitation in the League of Red Cross Societies, Geneva, Switzerland, devoting considerable time to the study of typhus fever in Roumania. From 1921 to 1923 he served as chairman of the sub-committee on plumbing of the building code committee of the United States Department of Commerce. Professor Whipple was recently appointed a member of the general directive board of the committee on industrial lighting of the National Research Council.

He had been president of the Boston Society of Civil Engineers, of the Brooklyn Engineers' Club, and of various other societies. He was commissioned as senior sanitary engineer with the grade of assistant surgeon-general, United States Public Health Reserve. He was a member of the American Society of Civil Engineers, American Water Works Association, New England Water Works Association, Boston Society of Civil Engineers, American Society for Promotion of Engineering Education; fellow of the American Public Health Association, fellow of the American Academy of Arts and Sciences, fellow of the American Association for the Advancement of Science, honorary fellow of the Royal Sanitary Institute and fellow of the Royal Microscopical Society of London; also member of the Harvard Club of Boston and Boston City Club.

He was the author of many books and monographs, including "The Microscopy of Drinking Water," "Typhoid Fever," "Value of Pure Water," "State Sanitation," "Vital Statistics," "Fresh Water Biology" (with Dr. Ward), "William Thompson Sedgwick, a Pioneer in Public Health" (with Professor C. E. A. Winslow and E. O. Jordan).

Professor Whipple is survived by his wife, Mrs. Mary Rayner Whipple; a daughter, Marion (Mrs. Gerald M. Keith), and a son, Joseph Rayner Whipple, who is a student at Bowdoin College.

WHIPPLE FUNERAL SUNDAY

Hour of Services in Appleton Chapel for
Engineering School Professor Will Be
Half Past Two

The hour of the funeral services in Appleton Chapel Sunday afternoon for Professor George Chandler Whipple of the Harvard Engineering School will be half past two, not three o'clock, as stated in some announcements. Rev. Raymond Calkins, D. D., of the First Church in Cambridge, and Rev. Edward Caldwell Moore, D. D., of the Harvard Theological School, will officiate.

President Lowell of Harvard University heads the list of honorary pallbearers, who include three members of the firm of Hazen & Whipple, L. N. Babbitt, Malcolm Pirnie and C. M. Everett, all of New York; Dr. Eugene Kelley, Massachusetts commissioner of public health; Dr. J. W. Bunker and Professor Samuel Prescott of Massachusetts Institute of Technology; Professors L. J. Johnson, G. S. Swain, A. E. Kennelly, F. L. Kenney, A. E. Clifford and Albert Sauveur, Dr. M. J. Rosenau and Dean H. J. Hughes of Harvard University, Henry Knapp and Ben Proctor. The active pallbearers will be M. C. Whipple and Gordon Fair of the Harvard faculty and T. P. Hatch, H. G. Baily, A. S. Pope and M. C. Balfour, students of Professor Whipple.

Dr. Archibald C. Davidson will play the organ. The ushers, all members of the Harvard Engineering School faculty, are to be Professors L. S. Marks, A. E. Norton, H. N. Davis, C. L. Dawes, L. C. Graton and Grinnell Jones.

Burial will be private.

Home again

We left Shelburne this morning amid cordial good byes from the friends left behind.

The journey home was easy. Trains on time. We had a very comfortable run from Danville Junction to Boston in the parlor car. Nippie met us at the door. She is well and will stay about a week to help Miss Brown.

Everything seems very natural here.

It took over the place with note at Sparks St.

I have put in this morning & part of the afternoon on the Rubi-
I have now got them into groups under one cover and labels all with each sheet, a species and a group label.

This noon Fred Carr came over and we had a long talk over his departure from College and coming return to Trinidad to help his father whose brother & partner has died. He must work and in the cocoa plantation and assume responsibility. He left me 2 or 3 photographs.

This evening Mrs Brown & I went in to Trinity Temple and saw Abraham Lincoln, a very effective & excellent performance wonderfully done —

Clear cool.

This morning I walked over to the Gray Herbarium stopping at the Allens. I found Mrs. Allen in, and we had a good talk for half an hour. She has a course in ornithology & mammalogy at Harvard, becoming thereby an Officer there.

At the Hb. I saw Miss Sanderson, Eggleston, Miss Conner, Fernald & a few others. Ivan Johnston was there with a cordial greeting. Dr. Robinson was in Caffrey. Fernald has wonderful tales of Newfoundland adventures. This afternoon at home busy at this & that.

This morning Mrs. Howe called with a big branch of Crataegus racemosa in ripe fruit. I shall make some specimens.

Cloudy, cool, calm.

This ^{morning} we worked as much as we could on Xmas Cards. The men are progressing with the weather strips. The second story is about half done.

This P.M. I went in to Mr. Brown's 31. Pinkney St. and sat with him from 2:30 to 4:00. He has pleurisy and was on his back in a nurse's arms. It is not bad. He says he can't be up any way till after Xmas. The house is nice big, and I think they will be very comfortable in their home.

This evening I went with B.L.R. to the Club and had 9 washed together. Fine only present.

Bill Beatty didn't go. He came home and went to bed early with a cold.

Cloudy clearing, breezy.

This morning I rose late
not feeling up to the mark.

I worked on *James* and
a good deal.

This afternoon I met the
Council of the Shakespeare Club
at Mr. Lane. Present W.C. Lane-
bro, Reed, Miss Bumstead &
Mr. Deane. S.H. Boone absent.
Conditions affected by my resign-
ation well being discussed and
a solution proposed that will
I feel sure, succeed. Revival of
Comm. to select plays &c. &c.

I dined with Mr. Lane & his
wife at his home & a party.

Then I met A.C. Spavall
at the Symphony Hall and
we listened to a wonderful
concert conducted by Kousse-
vitzky. Enthusiasm great.
Plays exquisite.

Home by 10.30 +.

Clear, windy, cold. 22°-9° Pm.

This morning I went soon to Appleton Chapel early, getting there by 10.30. Found waiting. No outsiders admitted. Got my usual seat. Place crowded with college officials, families, and students. Mr. Fordick was a drawing card. It was a wonderful occasion. I never heard a more forceful sermon on religion with effect. It was inspiring.

After service I met Mr. Weatherly in the yard & we dined at the Harvard Club. We had a good dinner and good talk. Then to home where we worked on 8 new cards, over 200!

In the evening Weatherly appeared for the Hike and we a farewell talk. He leaves me and the car and in the car goes home.

Cloudy & clear, cold.

A busy day - I in A.M. walked to Harv. Sq. did business at various places.

Then went to J.R.C.'s office. Found him and Miss Firth out. Staid quite a while. Miss B. returned - J.R.C. not coming in today.

Lunch at Thompsons Spa. Then home.

Council meeting of N.O.C. at Charlie Batchelder's at 7.30. Pleasant walk down a regular meeting. J.G. Myers of New Zealand spoke on the birds of his island. Many native sps. have apparently vanished for many reasons. Very interesting talk. Came home by electric. Air clear & cold.

the day near and much to
be done.

Cloudy, cool.

At home this A.M. I was pretty tired. We got a number of the more set can't cards. So much so.

I attended the meeting of the Bot. Mus. Comm. at 1 P.M. at the Union Club Bldg. Dr. Homer Gage Pres. The first was a delightful lunch. Seven of us were present, Dr. Gage, Rob. Jackson, Miss Harris, Oakes Ames, Hal Kennedy, Miss Ware & I. The talk which followed resulted in the plan for Dr. Gage & Miss Ware to write to a visit, members of the Ham. Corporation to get a room for next 5 weeks on the trip in Ames' department.

MAYOR OF BANGOR, MAINE**Albert R. Day Was One of Four Candidates for Republican Nomination for Governor Next June**

Albert R. Day, mayor of Bangor for the past two years, and candidate for the Republican nomination for governor of Maine, held at his home in Bangor this morning. He was in his sixty-fourth year. Born in Dixmont, Me., March 2, 1860, he went to Bangor with his family in 1862 and to Corinna in 1870. He attended Corinna Indian Academy and then for several years was a school teacher, being principal of the high schools at Vinalhaven and at Milson. In 1884 he engaged in business in Dixmont. Eight years later he sold out and opened a store in Corinna. At the age of twenty-one he was chosen superintendent of schools in Corinna. Mr. Day was elected to the Maine House in 1893 and to the Senate in 1895 and again in 1897. He achieved an important position in the Legislature and was elected president of the Senate in 1897.

Mr. Day moved to Bangor in 1899, having been appointed collector of the port of Bangor. He acquired an interest in the Adams Dry Goods Company, wholesale dry goods and furnishings in 1902, and for more than twenty years was president of the company, one of the most important and best known in its line in Maine. Mr. Day

Day also served as treasurer of the company for several years. He sold out the business in 1921.

Mr. Day was elected mayor of Bangor in 1922 by an imposing majority. He was re-elected in 1923. He had previously served as alderman.

In early life Mr. Day was prominent in the advancement of the Odd Fellows. He was a thirty-second degree Mason.

Mr. Day was married to Alberta B. Tibbets in 1887, who, with two daughters, Mrs. Lawrence L. Philbrook, of Shelburne, N. H., and Marion L. Day, of Bangor, now survive him.

EX-MAYOR DAY OF BANGOR DIES

Was First in G. O. P. Race for
Governor

BANGOR, Me., Jan. 21.—Former Mayor Albert R. Day, who was a candidate for the Republican nomination for Governor, died at his home today of cerebral hemorrhage, following an acute attack of indigestion, which he suffered while in Portland Friday. He had been unconscious since Saturday afternoon. The funeral service will be held at 3 o'clock Wednesday afternoon at the home, 84 Highland street.

Mayor Crosby today issued a proclamation ordering all city offices closed, the City Hall bell tolled and flags on city buildings set at half-staff. Many public events arranged for tonight have been canceled.

For many years Mr. Day was a political power in the state prior to 1903, when he gave up politics for business. He was, in the time of J. H. Manley, Hannibal Hamlin, Gov. Burleigh, Gov. Cobb, Sen. Hale, Sen. Frye and Cong. Boutelle, one of the leading figures in Republican politics in Maine.

Mr. Day was first in the field for the Republican nomination for Governor at the June primary, having announced his candidacy last February, and he had made a strong canvass, visiting nearly every county in the state.

WAS EXPERT IN BOTANY

Miss Mary A. Day Was Librarian of Gray Herbarium at Harvard For Thirty Years

Miss Mary Anna Day, for thirty years in the service of Harvard as librarian at the Gray Herbarium, died Sunday in her seventy-second year at the home of her sister, Mrs. Burke P. Leavitt, in Cambridge. She was born in Nelson, N. H., Oct. 12, 1852, the daughter of Sewell and Hannah (Wilson) Day, of Colonial ancestry. Early in life she moved with her family to Lancaster, where she was educated at the Lancaster Academy. For about ten years she taught in the Massachusetts public schools, but later she was librarian in the public library of Clinton. In 1893 she accepted appointment as librarian of the Gray Herbarium of Harvard University, a position which she held until last November, when failing health forced her to relinquish all professional duties.

With special aptitude for her work, Miss Day became a recognized expert on botanical bibliography. She aided in seeing through press portions of Dr. Asa Gray's Synoptical Flora, the seventh edition of Gray's Manual of Botany and many contributions from the Gray Herbarium. For twenty years she edited a Card Index of New Genera and Species of American Plants, a quarterly publication of high reference value covering more than 130 scientific journals from all parts of the world and in many languages. She was also author of papers on the local floras of New England and upon the herbariums of New England.

MONTAGUE CHAMBERLAIN'S ACHIEVEMENTS

To the Editor of the Transcript:

Montague Chamberlain, who died last Sunday at Boston in his eightieth year from the results of a fall on the ice, will be affectionately remembered by hundreds of middle-aged Harvard men who came into contact with him as "recorder" at the college office during the nineties. His position there was really unique. Canadian born and bred, by profession an accountant, without college affiliations or experience of any sort, he was the first purely business man to enter the sacred

proceeds of "U. S."—being in fact specifically engaged in 1880 to introduce business methods there. At that time the entire force of the office consisted of the late lamented Frank Bolles, who was also secretary to the university, and "Carrie" Harris of happy memory, who kept the wheels turning. The records were still kept as they had been kept in President Walker's time, and to find any student's standing one had to consult from six to eight huge manuscript volumes. Mr. Chamberlain's first task was to reduce and simplify this appalling mass of material to a single card-index system—then a novelty in almost all business management. Before this change was completed Miss Harris retired, and Mr. Bolles died shortly afterward; so that with the increased force that succeeded them Mr. Chamberlain became solely responsible for the system, the representative as well as the pioneer of the new order.

But his changes did not stop there. Owing to the smallness of the office force, the recorder also acted as assistant dean, and low marks, cuts, absences, and other peccadilloes were not only entered but also investigated by the same man. Mr. Chamberlain thus came into direct personal relations with the greater part of the college—for who does not fall from grace occasionally? Under the old régime a "summons" had been a perfunctory affair, and discipline had been meted out in a semi-mechanical and impersonal style—the last remains of the early days of ruthless severity. Mr. Chamberlain, being entirely unhampered by tradition, treated the students like human beings. His great natural sweetness of disposition, his shrewd powers of observation (he was by avocation a naturalist and a keen watcher of bird life), and his implicit confidence in "the word of a gentleman," made him a singularly sympathetic confidant of undergraduates in trouble of any sort. Every imaginable difficulty was brought to him, from an unhappy love affair to a late registration; and many an old Harvard man will gratefully recall how "Monty" got him out of a hole, or steadied his erring steps with wise and friendly counsel. Under his sway

"the office" became a place not to exhort and shun, but to seek and to trust.

Perhaps his greatest and most enduring service to the university, however, was in the promotion of the summer school. That institution, then the only thing of its kind in the country, was still in its infancy, and a very weak and unhealthy infancy at that. Outside the immediate neighborhood it was almost unknown. Its courses were few, and disdained by most of the faculty. Its enrollment was insignificant, and its fees were insufficient to meet its modest expenses—the deficit being paid out of the private pocket of Professor Shaler, who was almost its only supporter. Shaler applied to Mr. Chamberlain to see what he could do for it. As a business man and an impartial outsider, he at once decided that its first need was to become better known—in other words, to be advertised. Such an unheard-of proposal was met by long and obstinate opposition. But Chamberlain finally carried his point, and a statement describing the Harvard Summer School appeared in all the leading papers of the country. Letters of inquiry instantly began to come in, and Mr. Chamberlain made a point of answering each one personally. The results were amazing. The very next year the school met its expenses. The next there was a credit balance. The teachers who attended from distant parts of the country spread Harvard's name and fame among fitting schools where it had never been heard of before. In a few years the attitude of the faculty had so altered that courses in the summer school were counted towards a degree, and were given by the best members of the staff. By 1899 the enrollment had reached over thirteen hundred, and other summer schools had sprung up in eager imitation of the Harvard experiment. This type of educational work, now so widely accepted, may therefore be said to have been set on its feet by the inspired efforts of Montague Cham-

Mr. Chamberlain thus occupies a very interesting position in the administrative history of the university. Introducing business ideas and the "human element" into the system for the first time, he forms the connecting link, as it were, between the antiquated and the modern methods. The gentleness and nobility of his character were emphasized by his last years, which brought him more than his share of sorrows and privations, all borne with uncomplaining sweetness and fortitude. His greatest pleasure was to meet or hear about his old "boys," and to recall his days in "the office." In him Harvard loses an enterprising, loyal and efficient servant.

MISS MARY A. DAY

Miss Mary A. Day, after 30 years in service of Harvard University, passed away at the home of her sister, Mrs. Burke F. Leavitt, 39 Garfield street, on Sunday.

Mary Anna Day was born, of colonial ancestry, in Nelson, N. H. October 12, 1852. She was the daughter of Sewell and Hannah (Wilson) Day. During girlhood she moved with her family to Lancaster, Massachusetts, and was educated at the Lancaster Academy. From 1871 to 1880 she taught in the public schools of Massachusetts. At

a later date she had charge of the Public Library in Clinton. She came to Cambridge, January 1, 1893, when she was appointed Librarian of the Gray Herbarium of Harvard University. For many years, she lived at 43 Langdon street with her sister, the late Helen E. Day, who was well known through her admirable work in connection with Home Savings, the Y. W. C. A., and other philanthropic enterprises of the city.

Miss Mary Day, from special talents for her work and from her long career in charge of the library at the Gray Herbarium, became distinguished in her field. She was a widely recognized expert in matters relating to literature of botany. From her breadth of knowledge and exceptional skill in reading difficult proof, her judgment was constantly sought by her fellow workers in the Harvard botanical establishments and by botanical specialists in other parts of the country. She aided in seeing through press many botanical works, notably the later portions of Dr. Asa Gray's Synoptical Flora of North America and the last edition of Gray's well known Manual of Botany. For the last twenty years a considerable part of her time has been devoted to a Card Index of New Genera and Species of American Plants, a work of great reference value, published quarterly and subscribed for by the larger botanical establishments throughout the world, including those of the United States Government. In the preparation of this work it was necessary to consult page by page an enormous amount of literature including more

than 130 scientific journals in many languages. Miss Day will be gratefully remembered by hundreds of students whose problems were freely taken to her and always received her painstaking attention. She had become one of the most elderly of Harvard's great staff of specialized workers. Her health became seriously impaired two years ago, but she was later able to return to her work with much of her former vigor. Last November, however, she was obliged by failing health to give up all professional duties. In her immediate family she is survived by one sister, who is the wife of the Rev. Burke F. Leavitt.

Services were held on Tuesday from 39 Garfield street, conducted by Rev. Raymond Calkins, assisted by Rev. Laurence Howard and Rev. Ashley Leavitt. Burial will take place in a cemetery at Lancaster.

Miss Catriona Cole, daughter of Professor and Mrs. William Morse Cole of this city and Concord, and Richard Lowrey White, son of Mr. and Mrs. Marcus White of New Britain, Conn. was solemnized in Trinity Church, Concord, on Saturday. Miss Cole is a graduate of Radcliffe, '21, and Mr. White of Harvard, '20. Miss Cole after graduation was in charge of the Radcliffe endowment shop. She has been a member of the Concord Players for the last two seasons. Mr. White was early in the Italian Ambulance Service in the World War, later joining the American artillery. He is now in business at Great Barrington, where he and his bride will live.

Miss Cole was married in the same church as was her mother, and the reception also was in the same house. She wore her mother's wedding gown and her grandmother's lace. Rev. Samuel M. Crothers, D. D., of the First Parish church and Rev. Smith O. Dexter of Trinity church, Concord took part in the marriage service. Thomas Whitney Surette presided at the organ.

The bride was attended by her sister, Miss Elizabeth Cole, and the bridegroom by his brother, John C. White, Harvard, '24. The bridesmaids were Miss Lucy Briggs of Brookline, Miss Mildred Ellis of Newton, Miss Frances Flint and Miss Margaret Goldthwait of Boston, Miss Isabel Hoopes of Newbury and Miss Datha White, sister of the bridegroom. The ushers were Robert Buol of Providence, R. I.; Seton Droppers of Utica, N. GORHAM, N. H., March 26—The entire summer cottage colony here, at the foot of Mt. Washington, was threatened early today by fire which destroyed the Glen House, barn and other outbuildings, with a loss of \$50,000.

A bucket brigade was formed, and fought the blaze effectively in keeping it from spreading to the cottages. Water was lugged from pumps and wells nearby. But few of the cottages were occupied.

The volunteers summoned came from a long distance, and succeeded in saving the livestock and some of the farm tools.

All the furnishings of the hotel, together with personal property of James Pike, caretaker, and family, were lost.

The Glen House was owned by H. Libby & Sons, of Gorham. It was from this hotel that the automobile endurance races over Mt. Washington were started many years ago.

COMMISSIONER HAYES DEAD

He Succumbed to Pneumonia Just Before Midnight; Was Specially Prominent Since Prohibition for His Insistence on Strict Observance of the Letter of Law by Agents

Following an attack of pneumonia which developed about a week ago, United States Commissioner William A. Hayes died late last night at his home, 396 Mt. Auburn street, Cambridge. For several days his condition was alarming and a sinking spell yesterday was followed by a rally and then by a relapse. Commissioner Hayes who was widely known, will long be remembered for his vigorous insistence on the strict observance of the letter of the law by public law enforcement agents, following the Volstead act.

William Allen Hayes was born at Portsmouth, N. H., June 29, 1843, and was the son of John Lord Hayes and Caroline Sarah (Ladd) Hayes. He was a descendant of John Hayes who settled in Dover, N. H., in 1680. He studied at Harvard, from which college he received his degree of A.M. in 1866 and his LL.B. from the Harvard Law School in 1868. He was admitted to the Suffolk Bar that same year, and since had practised in Boston up to the time he received his higher appointment to the commissionership.

Mr. Hayes was assistant United States Attorney for three years and had been United States Commissioner since 1906. In Cambridge, his home city, he was formerly in the common council. He was a member of the Bar Association of the City of Boston, the Massachusetts Society of the Cincinnati and the Military Historical Society.

SUMMARY OF CASH ACCOUNT

In 1872 Commissioner Hayes joined the First Corps Cadets as a private and forged his way upward from the ranks through every position until he attained the rank of lieutenant colonel. His first advancement was a promotion to a lieutenancy eight years after his enlistment. His promotion to the lieutenant colonelcy came with his retirement in 1907, when he received high praise from the late Governor Curtis Guild for both his services as a volunteer soldier and for the work he had done in improving the small arms practice of the corps. His first important tour of duty as a member of the Cadets came when the great Boston fire swept away three-quarters of the business section of the Hub.

In August last year the State Anti-Saloon League, angered by Commissioner Hayes's attitude toward the Federal prohibition agents who appeared before his court, sought without success to have him removed. At one time prior to that the then enforcement agent for this district, James P. Roberts, had gone so far as to rise and protest in the Federal Court against Mr. Hayes's rulings. The commissioner retorted that he intended to have the laws enforced lawfully. An appeal to Senator Lodge served only further to strengthen the position taken by the commissioner. He was eighty years of age.

Mr. Hayes, who never married, is survived by his sister, Miss Susan L. Hayes, and the two had resided in the same house at 396 Mt. Auburn street for more than fifty years.

ASSOCIATES MOURN HIS LOSS

Judge Morton and Others Speak of Commissioner Hayes as Most Able Lawyer and Courageous and Kind Hearted Man

There was widespread regret around the Federal Building today over the death of Commissioner Hayes, and those who had been brought closely in touch with him expressed their sense of loss.

Judge Morton said of him: "Commissioner Hayes had to a very unusual degree the affection and respect of every-

29

body who knew him. He was a delightful friend, warm hearted, loyal and sympathetic, full of interests and enthusiasms, and of curious bits of learning. His integrity and his honor were never questioned by anybody. He was a much abler lawyer than he sometimes got credit for. His views as to the scope and effect of the Fourth and Fifth Amendments, which for a time he held almost alone, and which with characteristic courage he adhered to in the face of much criticism and opposition in certain quarters, were completely vindicated by the decisions of the Supreme Court. He was an outspoken, courageous, kind-hearted gentleman whose death is a great loss to the court and to his friends."

Assistant United States Attorney Ellhu D. Stone: "Commissioner Hayes will be mourned by all those who knew him; he will be remembered as a scholar and as a man of courage and independence; he had a profound knowledge of the law; he loved justice; he loved men. His life was indeed an inspiration—a life of purity and service."

United States Marshal William J. Neville: "The death of Commissioner Hayes removes one of the most able, conscientious and fair-minded Federal officials with whom the public has had to deal. Learned in constitutional law, champion of the rights of the individual under the Constitution, his decisions, carefully considered and ever fearlessly rendered, were invariably upheld by the Federal courts. To those of us who had the good fortune to know him personally and in military activities for many years, the passing of Colonel Hayes brings deep sorrow at the loss of a warm, loyal friend a fervent patriotic citizen and an ardent student of military history."

**BIBLICAL DRAMA AT
TREMONT TEMPLE**

TREMONT TEMPLE — "Jeremiah,"
Biblical drama in five acts, written by
Eleanor Wood Whitman, and presented
in two performances yesterday by the
Federation of Churches of Greater Bos-
ton.

The cast included: Selma B. Stone,
the Rev. Albert F. Pierce, D. D.; Dr.
Alfred Johnson, the Rev. E. E. Thomp-
son, John Pratt Whitman, Mary J. Gar-
ner, Erwin Halpern, Harold D. Wilson,
the Rev. Warren B. Brigham, Eleanor
Wood Whitman, the Rev. William R.
Leslie, Mrs. Ralph J. Clark, the Rev.
William L. Wood, Don Yarrow, Newton
L. Ellis, Wayne Latham, Rabbi Samuel
J. Abrams, the Rev. Benjamin T. Riley,
the Rev. H. Lincoln MacKenzie, the
Rev. Robert Watson, the Rev. John Mac-
bell, the Rev. Willis L. Sizer, the Rev.
John M. Trout, the Rev. Newton C. Bet-
ter, the Rev. Fletcher D. Parker.

In an explanatory note in the pro-
gram, written presumably by Mrs.
Whitman, the author of the play, the
popular conception of Jeremiah as
"Weeping Prophet" is refuted, for "he
was the one man of his time who stood
up like an 'iron pillar' against the po-
litical and personal deceit that was
bringing doom."

So in her play of "Jeremiah," which a
goodly gathering of noted churchmen
performed in Tremont Temple yester-
day, the prophet is a boldly outlined
figure, incisive, soul searching, hound-
ed by the false prophets, and forced to
give up thoughts of personal happiness
to become an outcast.

Date

In the five acts, the biblical story is made to stretch from Jeremiah's first call to the day of Nebuchadnezzar, and the realization of his ideal, although he dies. Enacted by men and women of Bible faith, who gave to the lines an earnestness that is so often lacking in the theatre, "Jeremiah" impressed its audiences. The settings were simple, unpretentious, and the costumes, some from Palestine and some designed by

the museum school, were richly decorative. Deserving of mention was Mr.

Whitman's Jeremiah, a vigorous and feeling impersonation.

Episcopal Rector Was Known as Advocate of "High Church."

Rev. Edward Allan Larrabee, associate rector of the Episcopal Church of the Ascension, La Salle and Elm streets, died last night at St. Luke's hospital.

Dr. Larrabee, known everywhere as "Father" Larrabee, on account of his advocacy of "high church" principles, had been at the hospital for a month.

Born in Chicago in 1852, he was graduated from Racine college in 1873 and from the General Theological seminary, New York, in 1876. Before coming to Chicago, Dr. Larrabee held rectorships in Quincy and Springfield. For twenty years prior to 1903 he was rector of the church of the Ascension, resigning this post to become dean of Nashotah house, Nashotah, Wis. Three years ago he returned to Chicago and was made associate rector.

Dr. Larrabee was superior general of the Guild of All Souls. He was a deputy to the general conventions of the church in 1901, 1904 and 1907. He was given the degree of doctor of divinity by Nashotah house and was the author of "Sacramental Teaching of the Lord's Prayer."

ONCE A CAMBRIDGE TEACHER

S Sanford B. Hubbard Spent Several Years in Littleton Where He Engaged in Farming *East. Evening Trans. Nov. 26, 24*

Sanford B. Hubbard, whose funeral was held today at the First Baptist Church, Cambridge, was born at Shelburne, N. H., July 18, 1841, the son of Thomas J. and Louisa Green Hubbard. He prepared for college at Phillips Exeter Academy, but before completing his course enlisted in the United States Navy for Civil War service, which he saw on the U. S. S. Augusta, off Hampton Roads and elsewhere. On his return, after different business ventures, he was in 1884 appointed a master in the Cambridge schools and served in teaching and executive positions until his retirement in 1913. During these years he was active in religious and philanthropic work, and held many positions of honor and trust, and was a member of different civic organizations in which he came in contact with many prominent men.

After 1913, he lived in Littleton, where he entered the Clifton Springs Sanitarium farms in the town. In June, 1924, he moved to Clifton Springs, N. Y., but his health becoming impaired, in October last he entered the Clifton Springs Sanatorium, where he died, following an operation, in the eighty-fourth year of his age. His wife, Annie Dodge Hubbard, a daughter, Theodora L., and three sons, William O., Roger S. and Francis A. Hubbard survive him.

but was an avowed abolitionist, the cause.

EDWARD B. DREW**DIES SUDDENLY****Long Connected with Chinese
Customs Service**

Edward Bangs Drew of Cambridge, senior commander of the imperial maritime customs of China, died suddenly Saturday at Cotuit, Cape Cod, where he was spending the summer at his country residence.

He was for many years connected with the customs service of China and was one of the few Americans who could speak and write Chinese.

He was born at Orleans, Aug. 24, 1843, a son of Benjamin aBngs, a Boston teacher and author. eRared in Newton, he was graduated from Boston Latin school, and after studies at Harvard received the degree of A. B.

Name

summa cum laude, from that institution in 1863, and the degree of A. M., in 1868. He had already begun the study of law, and was intending to practice in Boston, when he received the offer of a position in the Chinese customs service.

China had decided to put its customs department into the hands of experienced men, and the British government had notified Secretary Seward that it would be glad to have three bright American young men take positions in the service. He asked the presidents of Harvard and Yale to each appoint a young man, while he would select a third.

President Elliot chose Mr. Drew, who went at once to Peking. His promotion was rapid, and he finally became commissioner of the imperial maritime customs. The Emperor conferred on him the red button of the second rank and the decoration of the double dragon, second division.

In 1896 Mr. Drew was secretary of the embassy of Li Hung Chang to the United States. During his occasional visits to this country he lectured on Chinese conditions, once at the Lowell Institute, and in 1908 before the Commercial Club of Boston. He was former president of the Royal Asiatic Society of Shanghai, and fellow of the Eastern Asiatic Society of Boston.

Mr. Drew married in 1871 Abbie Anna Davis, a teacher at West Newton. Six children were born to them in China, but received their education in this country. The eldest son, Charles Drew, a graduate of the Institute of Technology, spent many years in the service of the Mexican Central railroad. The eldest daughter, a graduate of Radcliffe, was married to Prof. Babbitt of Harvard.

Mr. Drew was a member of the Harvard, Travelers, Colonial and Examiner clubs, and his Cambridge residence was at 48 Garden street.

TOWNSEND—Sarah Gore Flint Townsend, Sept. 4, ago 59 years. Wife of Dr. Charles W. Townsend. Funeral at Mt. Auburn Chapel, Saturday, Sept. 6, at 3.30 P.M.

AN EXPERT IN TEXTILES

Mrs. Sarah Gore Flint Townsend, wife of Dr. Charles Wendell Townsend of Boston and Ipswich, died yesterday at a sanitarium in Framingham after a brief illness. She had been an active master-craftsman member of the Boston Society of Arts and Crafts since 1901. For many years she did invaluable service as a member of its committee on exhibitions. She was elected a member of the council of the society for three years beginning in 1920 and in 1923 was elected a vice president, which position she held at the time of her death. As an expert on laces and textiles, she was a very helpful member of the Guild of Thread and Needle-Workers of the society.

Since 1905 Mrs. Townsend had been a valued member of the staff of the Boston Museum of Fine Arts: first, as assistant in charge of its important textile collection and of late years as adviser to that department. The textile collection was begun at the Museum in its earliest days, especially with a view to the aid it might bring to the textile industry of New England. In the performance of her duties Mrs. Townsend made several trips abroad and came in contact with many persons, collectors and officials, connected with allied branches of the art in Europe.

Mrs. Townsend was the daughter of Austin Whitwell Flint and Lucy (Parker) Flint of Brookline. She is survived by her mother, a brother, William Parker Flint of Tom's River, N. J., and three nieces and a nephew, children of Dr. Townsend by his first wife, who was Miss Gertrude Flint. They are Miss Gertrude Townsend, Mrs. Hale Sutherland, Mrs. Wendell Taber and Charles Townsend, all of Boston.

ERNEST HAROLD BAYNE, NATURALIST, IS ILL

Is at Phillips House, Massachusetts
General

Ernest Harold Bayne, the widely known naturalist and writer and lecturer on nature subjects, is ill at Phillips House, Massachusetts General Hospital. His condition is not considered serious. It was reported last evening that he had passed a restful day and was sleeping quietly.

Mr. Bayne, whose home is at Meriden, N. H., is well known in Boston and is a member of the Tavern Club and a director of the Harvard Travelers Club of this city. One of his more recent lectures in Boston was in 1920 before the Lowell Institute, on "Our Animal Allies in the World War."
